

# Asset Tracking Solution

By

**INDIO NETWORKS**

<https://indionetworks.com>

*Indio Networks formerly known as Wifi-soft Solutions*

# The Requirement

Tracking Material/Assets

Area restrictions

**Keeping a tab on the movement, is a need of the hour**

# The Challenge

Difficult to track assets in large campus

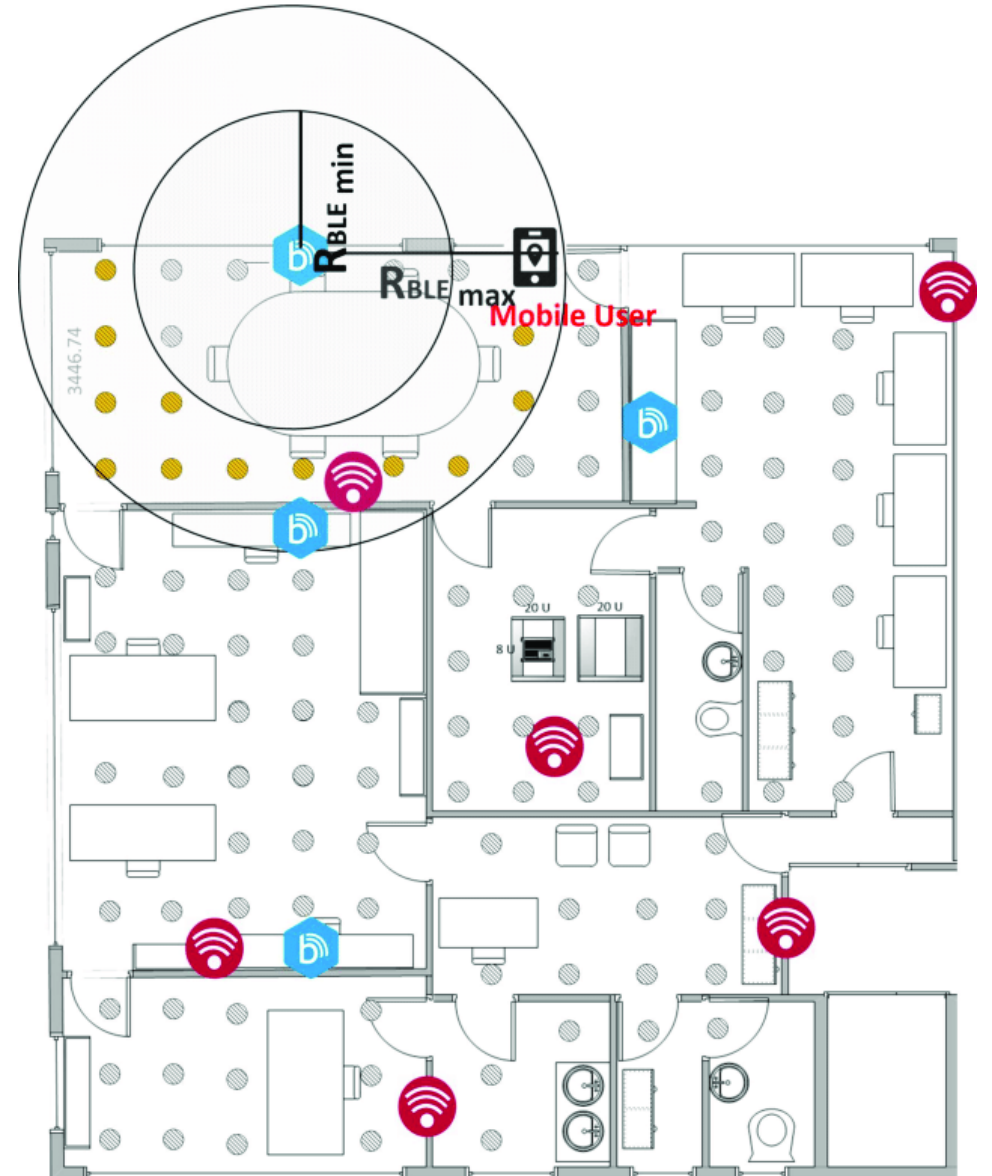

Lot of Man power is required to monitor and locate assets

Manual tracking is prone to human errors

# Solution: IndioTrack RTLS

- RTLS based on Bluetooth Low Energy (BLE) Technology
  - Cloud or Onprem Options for Software Installation
  - Monitoring sensor in different form factor
  - Supports vendor agnostics off-the-shelf tags
- Geo-fencing of assets
- Real-time alerts and notifications
- Inventory management
- Locate any assets with a single click
  - Floor map as well as physical info for locating
- Mobile app for custom use-case handling
  - Token generation, Patient registration, Navigation etc.
- Reports – Presence, Attendance, Active and Dead Assets etc.

# Asset Tags

## Asset Tag

**Benefits-** Low cost, Good battery life

**Applications-** Consumer, Asset or Physical asset tracking

**Industry-** Healthcare, Logistics, Retail, Manufacturing etc.

## Access Tag

**Benefits-** Low cost, Use and throw

**Applications-** Tracking of people indoor such as staffs, visitors etc.

**Industry-** Healthcare, Education, Enterprise, Mining etc.

## Wearable Tag

**Benefits-** Low cost, Good battery life

**Applications-** Tracking of people in indoor environments.

**Industry-** Healthcare, Factory, Mining etc.
